SKATECROSS RULEBOOK

1. **Safety Gear:** All participants **MUST** wear **HELMET.** Other safety gear, including knee pads, elbow pads, and wrist guards are **strongly** recommended but **OPTIONAL**. It is forbidden to ride the track without a helmet. A rider who loses his helmet at any time on the track must stop, put the helmet back on, and fasten the chinstrap properly before continuing to skate down the track. A skater who rides the track without helmet will be disqualified (ranked last on the final race result),
2. **Race bib numbers:** Placed at the side of the left thigh.
3. **Skates:** All types of skating boots are allowed. No skates with sharp points or any other feature that might harm other competitors are permitted.
4. **Course Familiarity**: Participants should have a chance to familiarize themselves with the course layout before the event begins. A practice session could be arranged for this purpose. It is each competitor's own responsibility to inspect the track before skating the track and its ramps. A training time will be given to allow the skaters to learn how they can skate the ramps the best way. If a skater missed the training time, it is his responsibility to start without knowing the track.
5. **Starting Procedure:** Participants will line up at the starting line. A starting signal, such as a whistle or countdown, will indicate the beginning of the race.
6. **Course Boundaries:** Participants must stay within the designated course boundaries at all times. Cutting corners or taking shortcuts is not allowed and may result in disqualification.
7. **Passing:** Overtaking is allowed but must be done safely and without causing interference to other participants. Aggressive or reckless passing maneuvers may result in penalties.
